

ADVANCED TECHNOLOGY  
EXCLUSIVELY COMBINED

**MISSIONKRAFT™**  
**SUPERIOR PERFORMANCE**

## 30m Service Vessel

### Advanced Hull Technologies

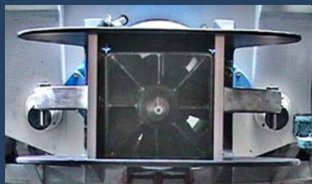

Advanced, foil supported, multi-stepped and asymmetric hull designs with contoured tunnels, active interceptors and hydrodynamic wedges reduce power and fuel consumption to achieve higher speeds, extend range, greater comfort with minimal slam and softer ride while improving speed and seaholding in rough conditions.

### DuoDrive

The advantages of 'duo-prop' stern- and pod- drives in a shaft drive format for better performance and economy with less fuel-sapping stern 'dig' and more efficient propeller designs optimised for drive.

### Intellijet

The worlds only fully controllable jet drive technology is up to 80% more efficient than standard jets. Performance and fuel efficiency gains are made at all speeds while transforming slow speed responsiveness and control.

Overall Length:	30.2m
Beam:	10.0m
Draft:	1.20m
Deck Area:	130sq m
Passengers:	5 Crew, 49 PAX
Power:	2 x 1400hp
Propulsion:	DuoDrive or Intellijet System
Max Speed:	24knots
Service Speed:	20knots
Fuel Capacity:	14,000L
Water Capacity:	6,000L
